

## Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper which automatically sets off to unload when bumper release touches the side of a dumpster. After dumping is done, the hopper goes back to a locked and upright position. This particular piece of equipment is likewise presented along with a cable that enables operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish so as to maintain durability.
